fql.query Flow

Stream Table FQL Query

```
select post_id, source_id, created_time, actor_id, target_id, app_id, message, attachment, comments, likes, permalink, attribution, type from stream where filter_key in (select filter_key FROM stream_filter where uid = 688626964 and type = 'newsfeed') and created_time >= 123456789 order by created_time desc limit 50
```

```
comments:{
  can_remove:false
  posts://{sample}
  can_post:true
  count:246
}
```

actor_id:679930430

Profile Table FQL Query

```
select id, name, pic_square url from profile where id in (679930430, 1497721984)
```

2 of these

```
{
  id:679930430
  name:Yariv Sadan
  pic_square:http://pic_square_url
  profile:http://profile_url
}
```

post_id:"140262580443_90208991150"

Comment Table FQL Query

```
select post_id, id, fromid, text, time from comment where post_id = '140262580443_90208991150' order by time desc
```

246 of these

```
{
  text:"Wow! Awesome picture!"
  name:"Summer Hinds"
  url:"http://www.facebook.com/etc..."
  fromid:1497721984
  id:"776507604_75814072604_922311"
  can_remove:false
  time:1240766545
}
```
